

NEW JERSEY CITIZENS' PETITION FOR ABSOLUTE SCHOOL CHOICE

We, the undersigned, understand that according to the New Jersey State Constitution Article 8, section 4, paragraph 1, requires the legislature to “provide for the maintenance and support of a thorough and efficient system of free public schools for the instruction of all children in the State between the ages of five and 18 years.”

We, the undersigned, understand that the 1947 New Jersey State Constitution has robbed the citizens of New Jersey of a fair, equitable thorough efficient system of free public schools and has been manipulated and abused by the current and past governors and legislators of the state of New Jersey.

We, the undersigned, understand that the free public schools in the state of New Jersey have become institutions controlled by special interests for which they purchase influence from our legislators. We also understand that New Jersey’s public schools are not free. They are paid for by the taxes assessed on New Jersey citizens by the state government.

We, the undersigned, understand that the redress of grievances before our elected officials and through New Jersey state courts including but not limited to The New Jersey State Supreme Court are ignored and disregarded. This is evidenced by but not limited to ***Robinson v. Cahill, Robinson 1, Abbott v. Burke, Abbott IV and Abbott V.***

We, the undersigned, understand and have thoroughly observed over the past many decades that the education system provided with taxpayer dollars is failing our children, physically, emotionally, psychologically and spiritually.

We, the undersigned, bear witness and attest to the clear observable facts that New Jersey education K-12 has inserted itself into every aspect of family life.

We, the undersigned, now demand absolute school choice and sovereignty over the education of our children who are given to us by God Almighty.

We, the undersigned, regarding the education of our children, now demand and insist that our tax dollars follow our children, as we the parents and taxpayers see fit. All parents and legal guardians shall exercise their freedom and oversight to choose the manner in which their children will be educated, by but not limited to private, religious, charter, co-op, homeschool, virtual, or government school of their choice with their tax dollars. This shall be done in such a manner that no government agency will interfere with the process of educating a minor child as the parent sees fit.
